

Mr. KWAKU ATIA

PID NO: P36180016084

Age: 34 Year(s) Sex: Male

Reference:

Sample Collected At:
GILEAD MEDICAL & DENTAL CENTER
HOUSE NO BALB NO C896/3,KANDA
HIGHWAY NORTH RIDGE,ACCRA-
14911.
014911

VID: 36180116754

Registered On:

04/10/2018 04:58 PM

Collected On:

04/10/2018

Reported On:

05/10/2018 10:09 AM

Investigation

CPK-Creatinine Phospho Kinase

(Serum,Enzymatic)

Observed Value

>2000

Unit

U/L

Biological Reference Interval

24-170

Interpretation : The major sources of CPK activity are skeletal muscle, myocardium & brain. CPK levels are useful for diagnosing and monitoring of myocardial infraction (MI) and myopathies such as proressive Duchenne muscular dystrophy.Exercise and muscle trauma can elevate CPK values. Presence of Macro CK may elevate CPK levels.
